Projects

Hotel Management System

https://app.sipconsult.net/frankies-hotel

- Developed a comprehensive system for hotel management using React.js, React Native, MSSQL and .NET clean architecture.
- Features included real-time booking, billing, and reporting.

Restaurant Management System

https://3.74.54.13/restaurantbackoffice/

- Built a system to streamline restaurant operations, integrating MongoDB for data management.
- Designed user-friendly frontend interfaces with React.js.

Point of Sale (POS) System

running on localserver

- Created a POS system for retail operations with payment gateway integration and inventory tracking.
- Leveraged .NET clean architecture and MSSQL for backend efficiency.

WordPress Website Hosting and Maintenance

https://i-psl.com/, https://achimotagolfclubgh.com/, http://lawtrustgh.com/, http://yabroyal.com/

- Hosted and managed multiple WordPress websites for various clients.
- Focused on security, performance, and regular updates to meet client needs.

Agab Construction

https://agabconstruction.com/, https://agabconstructionadmin.netlify.app/

- Agab Construction Platform is a MERN stack-based real estate and construction website. The user-side (agabconstruction.com) allows visitors to explore land, houses for rent or sale, and construction equipment for purchase or lease. The admin panel (agabconstructionadmin.netlify.app) enables efficient management of listings, projects, and business operations. Built with MongoDB, Express.js, React.js, and Node.js, this platform ensures a seamless experience for users while optimizing real estate and construction services.

Education

IPMC College of Technology, Circle Branch
